## 01 PROFILE

I am a Software Engineer with 5 years of experience in A/B Testing, Web Personalization, and design enhancement. I've run over 1,000 A/B tests for Fortune 500 companies, developed BRAC's first Android transportation app, and created an online newspaper management system, boosting company growth. I have a degree in Computer Science and Engineering and am skilled in Web Development, JavaScript, ReactJS, HTML, CSS, Android, and Python. I am fluent in English and committed to delivering effective solutions for both startups and established companies.

## 02 EMPLOYMENT HISTORY

May 2022 — Present

Dhaka

### Software Engineer at Echologyx Ltd

In my primary field, I specialize in A/B Testing, Web Personalization, and elevating functionality and design. With a track record of implementing over 1000 successful A/B tastings, my work has covered a diverse range of Fortune 500 companies.

May 2021 — May 2021

Dhaka

### Software Engineer at Nexkraft Limited

- Developed and launched new mobile apps for businesses,
- Utilized the MVC pattern to ensure app scalability and maintainability.
- Integrated mobile location, contract, background, and other essential Android services.
- Managed code deployment and maintained software products, including back-ends, websites, and databases, to ensure smooth operation.

Jan 2018 — Jun 2020

Dhaka

### Software Engineer at The Daily Jobabdihi

I was a founding member of this company, starting solo and seeing it grow to over 100 employees. In short, I handle everything IT-related. I created their internet network system and website and developed my basic skills there. I also played a key role in developing their management system. What began as a startup has now become one of the leading newspapers in Bangladesh.
